Comment: The report shows that no Soviet units were located in the MISKOLC area up to mid-July 1949. The information on Hungarian troops in MISKOLC clarifies and confirms previous reports. The 2d Border Guard Bn has been known to be located in MISKOLC since 1948. Its companies were assigned to border duty in the area northwest of MISKOLC. The MISKOLC 101st Mtz Arty Regt is the artillery unit mentioned in previous reports and in newspapers of May 1949. * The unit had previously been located in PECS. No detailed information on the strength and armament of this unit is available. It is reported for the first time that one infantry battalion, horse-drawn artillery troops (presumably not assigned to the 101st Mtz Arty Regt) and a motor transport unit (probably one battalion) were stationed in MISKOLC.
